

When to Use a Section 42 Paper Assessment

Insurer receives Ontario Claim Forms (OCF) & has the following concerns:

OCF 23:
Ancillary Goods & Services appear excessive when compared to the injuries sustained.

OCF 22:
Request for Assessment / Examination unreasonable based on the injuries sustained &/or high costs compared to standard fee schedules.

OCF 19:
Glasgow Coma Scale does not correlate with other reports and/or injuries.

OCF 18:

- Unclear whether the impairment falls within the Pre-approved Framework Guidelines.
- Prior Treatment Plan denied & 2nd Treatment Plan submitted within 20 days of the initial plan.

OCF 18:
Unsure whether treatment is reasonable & necessary

**Section 42
Paper Assessment
warranted**

Insufficient information

In-Person Insurer Examination Warranted (e.g. Orthopaedic, Physiatry, Physiotherapy, Chiropractic, etc)

- to determine whether Treatment Plan is reasonable & necessary
- to ask more specific questions regarding diagnosis, prognosis and duration of disability.
